The NEW Employee Manual May 02 2020 Welcome to Corporate Life. The NEW Employee Manual is not your Dad's or Mom's employee manual. It's the new playbook for corporate survival, fitting today's realities and the challenges facing employees who join or work in large, seemingly successful companies. Those companies already issued very specific and detailed employee manuals covering everything under the sun except how to compete well in our brave new world. The NEW Employee Manual will help you navigate the Corporate (with a capital C) labyrinth. Where Corporate's manual shapes you into a dutiful cog for the good of the machine, ours helps you enhance your career for the good of, well, you ... and your company. The NEW Employee Manual should make you feel skeptical: skeptical of empty slogans, obsolete rituals, obsessive pursuits, and bigwigs' playbooks that no longer work. That alone should be worth this book's price. Skepticism, you see, is a good thing, because it is only the skeptic, only the free-thinker, only the maverick, who asks new questions and finds useful answers. So, are you a maverick or a cog?

??????? Sep 29 2022 Endymion Wilkinson's bestselling manual of Chinese history has long been an indispensable guide to all those interested in the civilization and history of China. In this latest edition, now in a bigger format, its scope has been dramatically enlarged by the addition of one million words of new text. Twelve years in the making, the new manual introduces students to different types of transmitted, excavated, and artifactual sources from prehistory to the twentieth century. It also examines the context in which the sources were produced, preserved, and received, the problems of research and interpretation associated with them, and the best, most up-to-date secondary works. Because the writing of history has always played a central role in Chinese politics and culture, special attention is devoted to the strengths and weaknesses of Chinese historiography. The new manual comprises fourteen book-length parts subdivided into a total of seventy-six chapters: Books 1-9 cover Language; People; Geography and the Environment; Governing and Educating; Ideas and Beliefs, Literature, and the Fine Arts; Agriculture, Food, and Drink; Technology and Science; Trade; and Historiography. Books 10-13 present primary and secondary sources chronologically by period. Book 14 is on historical bibliography. Electronic resources are covered throughout.

New Principles of War Mar 12 2021 Influenced in part by the writings of Sun Tzu, Carl von Clausewitz, Henri Jomini, and other strategists, most major militaries have adopted principles of war that are widely promulgated. Marvin Pokrant argues that these commonly accepted principles fail to reflect the ideas that led to them. Looking at the fundamental and enduring concepts behind the original principles of war, Pokrant presents nine new principles of war. To illustrate his points Pokrant uses numerous examples drawn from military history, including land, sea, and air warfare from ancient times to the present. By analyzing and reforming the principles of war, Pokrant provides a modern, relevant, and useful way to guide decisions made in times of war.

Constitutional implications of the Cabinet manual Jan 10 2021 Whilst welcoming the motivation behind the Manual and the transparency it brings to the workings of Government, the Committee says that in practice the Manual may be treated as having greater authority than originally intended, particularly where its content extends beyond matters purely for the Executive. All the work of the Executive, including the Cabinet Manual, is subject to scrutiny by Parliament. The fact that the document is primarily directed at the Executive does not exempt it from this scrutiny. The Committee makes some practical suggestions for specific improvements to the text, focusing particularly on the chapters covering government formation and ministers and Parliament. The Committee also challenges some of the specific content of the draft: the failure to include the convention, acknowledged elsewhere by the Government, that Parliament should have the opportunity to debate decisions to commit troops to armed conflict; guidance on when a Prime Minister should resign following a hung Parliament. The Committee recommends that the House should hold a regular debate on the Manual. The Committee felt, despite dissatisfaction with parts of the original draft, there was no reason to delay production of an approved version. The new version need not be perfect as it will be subject to further review.
