Ethnographic Fieldwork Jan 22 2022 Ethnographic fieldwork is something which is often presented as mysterious and inexplicable. How do we know certain things after having done fieldwork? Are we sure we know? And what exactly do we know? This book describes ethnographic fieldwork as the gradual accumulation of knowledge about something you don't know much about. We start from ignorance and gradually move towards knowledge, on the basis of practices for which we have theoretical and methodological motivations. Jan Blommaert and Dong Jie draw on their own experiences as fieldworkers in explaining the complexities of ethnographic fieldwork as a knowledge trajectory. They do so in an easily accessible way that makes these complexities easier to understand and to handle before, during and after fieldwork. The 2nd edition of this bestselling book updates the 1st edition and includes a new postscript on ethnography in an online world.

The Idea of English in Japan Jul 28 2022 This book examines the ways in which English is conceptualised as a global language in Japan, and considers how the resultant language ideologies – drawn

in part from universal discourses; in part from context-specific trends in social history – inform the relationships that people in Japan have towards the language. The book analyses the specific nature of the language's symbolic meaning in Japan, and how this meaning is expressed and negotiated in society. It also discusses how the ideologies of English that exist in Japan might have implications for the more general concept of 'English as a global language'. To this end it considers the question of what constitutes a 'global' language, and how, if at all, a balance can be struck between the universal and the historically-contingent when it comes to formulating a theory of English within the world.

Gardens Oct 31 2022 Humans have long turned to gardens - both real and imaginary - for sanctuary from the frenzy and tumult that surrounds them. Those gardens may be as far away from everyday reality as Gilgamesh's garden of the gods or as near as our own backyard, but in their very conception and the marks they bear of human care and cultivation, gardens stand as restorative, nourishing, necessary havens. With *Gardens*, Robert Pogue Harrison graces readers with a thoughtful, wide-ranging examination of the many ways gardens evoke the human condition. Moving from the gardens of ancient philosophers to the gardens of homeless people in contemporary New York, he shows how, again and again, the garden has served as a check against the destruction and losses of history. The ancients, explains Harrison, viewed gardens as both a model and a location for the laborious self-cultivation and self-improvement that are essential to serenity and enlightenment, an association that has continued throughout the ages. The Bible and

Qur'an; Plato's Academy and Epicurus's Garden School; Zen rock and Islamic carpet gardens; Boccaccio, Rihaku, Capek, Cao Xueqin, Italo Calvino, Ariosto, Michel Tournier, and Hannah Arendt - all come into play as this work explores the ways in which the concept and reality of the garden has informed human thinking about mortality, order, and power. Alive with the echoes and arguments of Western thought, Gardens is a fitting continuation of the intellectual journeys of Harrison's earlier classics, Forests and The Dominion of the Dead. Voltaire famously urged us to cultivate our gardens; with this compelling volume, Robert Pogue Harrison reminds us of the nature of that responsibility - and its enduring importance to humanity.

Rhetorical Grammar Aug 29 2022 Rhetorical Grammar encourages writers to recognize and use the structural and stylistic choices available to them and to understand the rhetorical effects those choices can have on their readers. Rhetorical Grammar is a writer's grammar - a text that presents grammar as a rhetorical tool, avoiding the do's and don'ts so long associated with the study of grammar. It reveals to student writers the system of grammar that they know subconsciously and encourages them to use that knowledge to understand their choices as writers and the effects of those choices on their readers. Besides providing key strategies for revision, Rhetorical Grammar presents systematic discussions of reader expectation, sentence rhythm and cohesion, subordination and coordination, punctuation, modifiers, diction, and other principles. Studying grammar from this rhetorical point of view defines the study of language as an intellectual exercise designed to open up students' minds to the versatility, beauty, and possibilities of language.

Living Narrative Jun 26 2022 This pathbreaking book looks at everyday storytelling as a twofold phenomenon--a response to our desire for coherence, but also to our need to probe and acknowledge the enigmatic aspects of experience. Letting us listen in on dinner-table conversation, prayer, and gossip, Elinor Ochs and Lisa Capps develop a way of understanding the seemingly contradictory nature of everyday narrative--as a genre that is not necessarily homogeneous and as an activity that is not always consistent but consistently serves our need to create selves and communities. Focusing on the ways in which narrative is co-constructed, and on the variety of moral stances embodied in conversation, the authors

draw out the instructive inconsistencies of these collaborative narratives, whose contents and ordering are subject to dispute, flux, and discovery. In an eloquent last chapter, written as Capps was waging her final battle with cancer, they turn to unfinished narratives, those stories that will never have a comprehensible end. With a hybrid perspective--part humanities, part social science--their book captures these complexities and fathoms the intricate and potent narratives that live within and among us.
