The Green Book Aug 17 2021 This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users.

Historical Review of the Political Relations Between the British Government in India and the Empire of Ava Mar 31 2020

Distribution of Health Services in the Structure of State Government, 1950 Jul 04 2020

HM Government: Ending Gang and Youth Violence: Annual Report 2013 - Cm. 8746 Aug 05 2020 Dated December 2013

Britain's Declining Empire Nov 07 2020 An authoritative political history of one of the world's most important empires on the road to decolonisation. Ronald Hyam's 2007 book offers a major reassessment of the end of empire which combines a

study of British policymaking with case studies on the experience of decolonization across Africa, Asia and the Caribbean. He describes the dysfunctional policies of an imperial system coping with postwar, interwar and wartime crises from 1918 to 1945 but the main emphasis is on the period after 1945 and the gradual unravelling of empire as a result of international criticism, and the growing imbalance between Britain's capabilities and its global commitments. He analyses the transfers of power from India in 1947 to Swaziland in 1968, the major crises such as Suez and assesses the role of leading figures from Churchill, Attlee and Eden to Macmillan and Wilson. This is essential reading for scholars and students of empire and decolonisation.

Safety at Street Works and Road Works Jul 16 2021 This publication sets out the statutory requirements for signing, lighting, and guarding at street works and road works. This is the core reference manual for utility companies, local authorities, street work contractors and others whose day-to-day business involves street works (works by statutory undertakers and other utility companies etc) and road works (works to maintain or repair road infrastructure). The code, which covers all of the UK and includes national variations, is now compulsory for highway/road authorities in England, Wales and Northern Ireland. It applies to all single carriageway roads and dual carriageways with a speed limit of 40 mph or less. The code is now divided into three parts: Basic Principles, Operations, and Equipment and Vehicles; site layout diagrams have been redrawn to make them easier to understand. There is: increased emphasis on using risk assessment and guidance on what to consider in such assessments; strengthened guidance on providing for pedestrians and cyclists and new guidance on traffic control measures related to road closures, one-way working and temporary road obstructions; enhanced advice on other traffic control measures including works near tramways and railways, and mobile/short duration works; and updated advice on high visibility clothing and the signing and conspicuity requirements for work vehicles. Effective from 1 October 2014 when it will supersede the 2001 edition (ISBN 9780115519581).

Care of the Dying Oct 31 2022 This title provides professionals who care for the dying with a user-friendly guide on how to render the best possible treatment.

The "Summa Theologica Sep 25 2019

The End of Government-- as We Know it Mar 24 2022 Looks at the ways in which government in the United States needs to change in order to cope with the challenges of the new century. The author presents a new model, which is more flexible and less bureaucratic.

Locke: Two Treatises of Government Dec 21 2021 Originally published in 1960, this analysis of all of Locke's publications quickly became established as the standard edition of the Treatises as well as a work of political theory in its own right.

Continental Drift Oct 07 2020 In the aftermath of the Second World War, Churchill sought to lead Europe into an integrated union, but just over seventy years later, Britain is poised to vote on leaving the EU. Benjamin Grob-Fitzgibbon here recounts the fascinating history of Britain's uneasy relationship with the

European continent since the end of the war. He shows how British views of the United Kingdom's place within Europe cannot be understood outside of the context of decolonization, the Cold War, and the Anglo-American relationship. At the end of the Second World War, Britons viewed themselves both as the leaders of a great empire and as the natural centre of Europe. With the decline of the British Empire and the formation of the European Economic Community, however, Britons developed a Euroscepticism that was inseparable from a post-imperial nostalgia. Britain had evolved from an island of imperial Europeans to one of post-imperial Eurosceptics.

Caring for our future Apr 24 2022 Care and support affects a large number of people: eight out of 10 people aged 65 will need some care and support in their later years; some people have impairments from birth or develop them during their working life; some 5 million people care for a friend or relative, some for more than 50 hours a week. The current system does not offer enough support until a crisis point is reached, the quality of care is variable and inconsistent, and the growing and ageing population is only going to increase the pressure. Consequently, two core principles lie at the heart of this White Paper. The first is that individuals, communities and Government should do everything possible to prevent, postpone and minimise people's need for formal care and support. The system should be built around the promotion of people's independence and well-being. The second principle is that people should be in control of their own care and support, with personal budgets and direct payments, backed by clear, comparable information and advice that will allow individuals and their carers to make the choices that are right for them. This paper sets out the principles and approach, with sections covering: strengthening support within communities; housing; better information and advice; assessment, eligibility and portability for people who use care services; carers' support; defining high-quality care; improving quality; keeping people safe; a better local care market; workforce; personalised care and support; integration and joined-up care.

Mental Capacity Act 2005 code of practice Jun 26 2022 The Mental capacity Act 2005 provides a statutory framework for people who lack the capacity to make decisions for themselves, or for people who want to make provision for a time when they will be unable to make their own decisions. This code of practice, which has statutory force, provides information and guidance about how the Act should work in practice. It explains the principles behind the Act, defines when someone is incapable of making their own decisions and explains what is meant by acting in someone's best interests. It describes the role of the new Court of Protection and the role of Independent Mental Capacity Advocates and sets out the role of the Public Guardian. It also covers medical treatment and the way disputes can be resolved.

The British Press, Public Opinion and the End of Empire in Africa Jan 28 2020 This book provides fresh insights into how the British press affected both British perceptions of decolonisation in Africa and British policy towards it during the 'wind of change' period. It also reveals, for the first time, the extent to which British newspaper coverage was of relevance to African and white settler readerships. British newspapers informed the political strategies and civic

cultures of African activists, nationalists, liberal whites in Africa, the staunchest of white settler communities, and the first governments of independent African states and their opponents. The British press, British public opinion and British journalists became etched into the lived experiences of the end of empire affecting Anglo-African and Anglo-settler relations to this day. Arguing that the press cast a transnational web of influence over the decolonisation process in Africa, the author explores the relationships between the British, African and settler public and political spheres, and highlights the mediating power of the British press during the late 1950s. The book draws from a range of British newspapers, official government documents, newspaper archives, interviews, memoirs, autobiographies and articles printed in African and white settler papers. It will be of interest to historians of decolonisation, Africa, the media and the British Empire.

Love It Or Leave It Feb 20 2022 If you were offered the chance at total freedom from taxes and total freedom from government in your life, would you take it? Our widely-held faith in the free market leads many to believe that government is the problem. If we could only get the government to stop interfering in our economy and in our lives, then market forces would solve so many of the problems plaguing us today. While politicians only continue to offer the fantasy of ending government through government (i.e., vote for me and I'll cut government programs), this book proposes a simple, realistic plan called the Total Freedom Act that will make it possible to live the libertarian, free market ideal. Love It or Leave It cuts right through the endless and tiresome culture war by holding ideology up to the mirror of reality. America is stuck in an endless cycle of debate about whether government is too socialist or not socialist enough and whether it is a force for positive change or our worst enemy. But sometimes a simple idea can change everything. The Total Freedom Act ends this debate with a plan to bring our highest ideals to life and restore true freedom in America. Mark Manney presents the idea that ends government as the problem.

Two Treatises of Government Sep 17 2021

An Essay Concerning the True Original Extent and End of Civil Government. by John Locke. with Notes, by the Rev. Thomas Elrington, S.F.T.C.D. and M.R.I.A. Second Edition Apr 12 2021 The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Delve into what it was like to live during the eighteenth century by reading the first-hand accounts of everyday people, including city dwellers and farmers, businessmen and bankers, artisans and merchants, artists and their patrons, politicians and their constituents. Original texts make the American, French, and Industrial revolutions vividly contemporary. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an

additional tool in helping to insure edition identification: ++++ Bodleian Library (Oxford) T182847 A reprint of Locke's second treatise of government. Dublin: George Bonham, 1798. vi,210p.; 12°

Studies in Tudor and Stuart Politics and Government: Volume 2, Parliament Political Thought Jul 24 2019 The papers collected in these volumes revolve around the political, constitutional and personal problems of the English government between the end of the fifteenth-century civil wars and the beginning of those of the seventeenth century. Previously published in a great variety of places, none of them appeared in book form before. They are arranged in four groups (Tudor Politics and Tudor Government in Volume I, Parliament and Political Thought in Volume II) but these groups interlock. Though written in the course of some two decades, all the pieces bear variously on the same body of major issues and often illuminate details only touched upon in Professor Elton's books. Several investigate the received preconceptions of historians and suggest new ways of approaching familiar subjects. They are reprinted unaltered, but some new footnotes have been added to correct errors and draw attention to later developments.

What Comes Next Dec 09 2020 Our current government is failing us - the poor most dramatically. Global market forces of information and capital are destroying the old top-down politics. If present trends are allowed to continue, America will stumble into a grim Cyber Future of community breakdown and spiraling inequality - a real-life nightmare reminiscent of the fiction of William Gibson. But James Pinkerton offers hope that we can yet create a prosperous, tolerant, and compassionate society for the next century. Radically streamlined government must be part of the answer, but such transformation must be balanced by a new paradigm of choice, empowerment, inclusiveness, and decentralization that leads to a new spirit of communitarian healing at the grassroots. Pinkerton brings his practical experience in electoral politics to a sharp yet constructive critique of both parties. He warns the rampaging Republicans against culture-war jihads, but he counsels Democrats that they are doomed if they can't break their Faustian bargain with bureaucracy. And if both parties fail, he adds, some new third-party political configuration is inevitable. On the eve of the 1996 elections, no book could be more timely than What Comes Next.

An Essay on Government Jan 10 2021 Originally published in 1937, this book presents the complete text of Mill's *An Essay on Government*, with an editorial introduction and textual notes.

End of History and the Last Man Jan 22 2022 Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

Monarchy and the End of Empire Sep 05 2020 Examines the relationship between the British government, the Palace, and the modern Commonwealth since 1945 and argues that the monarchy's relationship with the Commonwealth, which was initially promoted by the UK as a means of strengthening imperial ties,

increasingly became an impediment to British foreign policy.

End of life choices Jul 28 2022 A book for nurses, doctors and all who provide end of life care, this essential volume guides readers through the ethical complexities of such care, including current policy initiatives, and encourages debate and discussion on their controversial aspects. Divided into two parts, it introduces and explains clinical decision making-processes about which there is broad consensus, in line with guidance documents issued by WHO, BMA, GMC, and similar bodies. The changing political and social context where 'patient choice' has become a central idea, and the broadened scope of patients' best interests, have added to the complexity of decision-making in end of life care. The authors discuss issues widely encountered by GPs, nurses, and hospital clinicians. These include patient choice, consent, life-prolonging treatment, and symptom relief including sedation. Part two explores the more controversial current end of life care initiatives, such as advance care planning preferred place of care and death, euthanasia and assisted suicide, extended ideas of 'best interests', and the view that there are therapeutic duties to the relatives of patients. Throughout their discussion the authors draw attention to loose ends and contradictions in some of the proposals. Examining the current policy of consumerist choice, they reject its place in the health service, proposing a realistic, fair, humane and widely adoptable system of end of life care. As knowledge of ethical theories is required in training courses, and the vocabulary of ethical theory is widespread in current discussions a substantial appendix on ethical theories and terms is available online. Written by the same authors as *The Philosophy of Palliative Care: Critique and Reconstruction*, which won the Medical Journalists' Association Specialist Book Award 2007, this new book for non-specialists is essential reading for all health care professionals involved in providing end of life care.

Free Market Revolution Nov 27 2019 NATIONAL BESTSELLER A look at how our current crises are caused by too much government, and how Ayn Rand's bold defense of free markets can help us change course. The rise of the Tea Party and the 2010 election results revealed that tens of millions of Americans are alarmed by Big Government, but skeptical that anything can or will be done to stop the growth of the state. In *Free Market Revolution*, the keepers of Ayn Rand's legacy argue that the answer lies in her pioneering philosophy of capitalism and self-interest - a philosophy that more and more people are turning to for answers. In the past few years, Rand's works have surged to new peaks of popularity, as politicians like Paul Ryan, media figures like John Stossel, and businessmen like John Mackey routinely name her as one of their chief influences. Here, Brook and Watkins explain how her ideas can solve a host of political and economic ills, including the debt crisis, inflation, overregulation, and the swelling welfare state. And most important, they show how Rand's philosophy can enable defenders of the free market to seize the moral high ground in the fight to limit government. This is a fresh and urgent look at the ideas of one of the most controversial figures in modern history - ideas that may prove the only hope for the future.

Government Response Feb 29 2020

Government's End May 26 2022 An earlier edition of this extraordinarily prescient, elegantly written book created a sensation among Washington and

media insiders when it was published more than five years ago under the title `Demosclerosis. In it, Jonathan Rauch, a former correspondent for The Economist and a columnist for National Journal, showed with startling clarity the reasons why America's political system (and, in fact, other political systems as well) was becoming increasingly ineffective. Today, as Rauch's predictions continue to manifest themselves in a national politics of "sound and fury" and little effective legislation, and in increasing voter cynicism, this book has achieved renown as the classic and essential work on why politics and government don't work.

The End of the Republican Era May 14 2021 In The End of the Republican Era, Theodore J. Lowi predicts not only a collapse of the Republican coalition but also the potential collapse of the United States' republican experiment at large. Professing that the ideologies of dominant political coalitions contain the seeds of their own destruction, Lowi suggests that the efforts of a new conservative Right to enforce a national, religion-based morality has brought about the demise of the Republican era. A new, in-depth afterword by Lowi brings the text up to date with a discussion of political events since the book's original publication. Noting the appearance of the new Conservative coalition, whose ideology runs counter to that of the traditional Republican party, Lowi affirms that the Republican era did in fact come to an end during the 1990s, having morphed into a Conservative party.

Does the End of the Netanyahu Government Mark the End of "Democratic Backsliding" in Israel? Jun 14 2021

Ending poverty Dec 29 2019 Ending Poverty presents a new approach to government policy that is capable of eliminating preventable poverty within the foreseeable future. The book proposes an aggressive, conservative reform plan that is institutionalized through an income contract between the individual and the government and will guarantee adequate income for all who participate.

The Budget of the United States Government for the Fiscal Year Ending June 30 [1924]- Nov 19 2021

Equity and excellence: Oct 19 2021 Equity and Excellence : Liberating the NHS: Presented to Parliament by the Secretary of State for Health by Command of Her Majesty

End of the Affair Jun 02 2020 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1981.

Budget of the United States Government May 02 2020

County Government Finances in ... Jun 22 2019

The Conservative Government and the End of Empire 1957-1964: Economics, international relations, and the commonwealth Aug 29 2022 This volume represents the first in-depth treatment of end of empire during its climactic phase, and from it will emerge a closer understanding of the dynamics involved in decolonisation.

The End of Politics and the Birth of iDemocracy Oct 26 2019 The west is in crisis

Governments have grown too big, living beyond their means - and ours. The true costs of extra officialdom have been concealed. Parasitical politicians have been hopeless at holding to account the elites who now preside over us. As a result, Western nations are mired in debt and chronically misgoverned. Should we despair? Actually, no. Precisely because the West's Big Government model is bust, things are going to have to change. The West is on the cusp of a dramatic transformation driven by the failure of her elites, technology and maths. At the precise moment Big Government becomes unaffordable, the internet revolution makes it possible to do without it. Be optimistic. We are going to be able to manage without government - and thrive. The old political and economic order is about to give way to something vastly better.

The Future of Public Health Feb 08 2021 "The Nation has lost sight of its public health goals and has allowed the system of public health to fall into 'disarray'," from The Future of Public Health. This startling book contains proposals for ensuring that public health service programs are efficient and effective enough to deal not only with the topics of today, but also with those of tomorrow. In addition, the authors make recommendations for core functions in public health assessment, policy development, and service assurances, and identify the level of governmentâ€"federal, state, and localâ€"at which these functions would best be handled.

High Quality Care for All Sep 29 2022 This review incorporates the views and visions of 2,000 clinicians and other health and social care professionals from every NHS region in England, and has been developed in discussion with patients, carers and the general public. The changes proposed are locally-led, patient-centred and clinically driven. Chapter 2 identifies the challenges facing the NHS in the 21st century: ever higher expectations; demand driven by demographics as people live longer; health in an age of information and connectivity; the changing nature of disease; advances in treatment; a changing health workplace. Chapter 3 outlines the proposals to deliver high quality care for patients and the public, with an emphasis on helping people to stay healthy, empowering patients, providing the most effective treatments, and keeping patients as safe as possible in healthcare environments. The importance of quality in all aspects of the NHS is reinforced in chapter 4, and must be understood from the perspective of the patient's safety, experience in care received and the effectiveness of that care. Best practice will be widely promoted, with a central role for the National Institute for Health and Clinical Excellence (NICE) in expanding national standards. This will bring clarity to the high standards expected and quality performance will be measured and published. The review outlines the need to put frontline staff in control of this drive for quality (chapter 5), with greater freedom to use their expertise and skill and decision-making to find innovative ways to improve care for patients. Clinical and managerial leadership skills at the local level need further development, and all levels of staff will receive support through education and training (chapter 6). The review recommends the introduction of an NHS Constitution (chapter 7). The final chapter sets out the means of implementation.

The NHS Aug 24 2019 John Marks is something of a national treasure. Warm,

funny, passionate, opinionated and occasionally contrary, he is a man whose life for more than 40 years marched in beat with that of the National Health Service. There is scarcely a medical issue or controversy in which John Marks was not involved. Abortion law reform, the doctors' 1970s revolt against the General Medical Council, the foundation of the Royal College of General Practitioners, countless NHS reorganizations, and the bloody battle over NHS pay beds and the pay of junior doctors are just a sample. Then there was the fierce, principled battle over how the medical profession and the public should respond to the terror of a new disease - AIDS. And the great war that was fought over the Conservatives introduction of market forces into the NHS in the late 1980s and early 1990s - an approach to running the NHS that lives on, reincarnated, under the current Labor government. In all of these John Marks played more than a walk-on part. In many he was a principal actor. For anyone wanting fully to understand the BMA's role in all this, this book is thus required reading. But it is much more than just a dry history of times past. It is laced with anecdote, from the horrifying to the hilarious, and on to high politics. John Marks' account of his life and times provides the tale of a warm, human, liberal and occasionally buccaneering man whose passion for life and causes leaves even those who do not always agree with him eager to count him among their friends.
