As/A-Level 19th and 20th Century British History Feb 29 2020 Exam Revision Notes provide students with the perfect foundation for successful revision. The core topics common to the main AS/A-level specifications are covered in the form of concise and highly relevant notes. This helps students to identify the areas they need to revise, allowing them time to develop the higher level skills of analysis and evaluation. The Notes are accompanied by short commentaries that develop key points, identify common pitfalls and offer advice for tackling each topic.

Revision Notes for the FRCEM Intermediate SAQ Paper Aug 17 2021

This is the only revision guide you will need to pass the FRCEM Intermediate examination. A new edition of the popular and successful Revision Notes for the MCEM Part B, this guide is mapped directly to the new FRCEM Intermediate syllabus. The book is tailored to match all areas on which you may be tested, allowing candidates to revise accurately and efficiently for this challenging exam. To ensure effective revision, information is presented in concise notes and bullet points with visually memorable tools, such as tables and diagrams. Each chapter contains high-quality example SAQs so candidates can practice their exam technique, and 'key points' and 'exam tips' boxes to highlight the most important information. Drawing on the authors' experience and expertise, Revision Notes for the FRCEM Intermediate SAQ paper is a trustworthy revision guide for this difficult and clinically focused examination, as well as a useful reference guide for practicing emergency medical doctors.

**Essential Revision Notes in Clinical Neurology** Jan 28 2020 Neurological disorders account for 10% of consultations in primary care and 20% of acute hospital admissions, yet there is good evidence that 'neurophobia' is common among medical students lost in unnecessary detail. This has led to neurology's long-established reputation as a difficult subject. This book is the antidote to neurophobia. It is divided into four sections: Section I introduces the reader to clinical neurology by summarising the basic aspects of a neurological consultation including history and examination; Section II covers neurological signs related to cranial nerves, motor and sensory system and peripheral nerve lesions; Section III comprises the major and common diseases such as headache, epilepsy, stroke, Parkinson's disease and Multiple sclerosis; and Section IV addresses other main neurological problems. The scope of this book is limited to only the most fundamental principles and omits all superfluous detail - ideal for medical students needing a concise introduction to neurology and an overview for revision.

History First Teaching: September 2015 First Exam: June 2016 Target success in Edexcel AS/A-level History with this proven formula for effective, structured revision; key content coverage is combined with exam preparation activities and exam-style questions to create a revision guide that students can rely on to review, strengthen and test their knowledge. - Enables students to plan and manage a successful revision programme using the topic-by-topic planner - Consolidates knowledge with clear and focused content coverage, organised into easy-to-revise chunks - Encourages active revision by closely combining historical content with related activities - Helps students build, practise and enhance their exam skills as they progress through activities set at three different levels - Improves exam technique through exam-style questions with sample answers and commentary from expert authors and teachers - Boosts historical knowledge with a useful glossary and timeline

**Revision Notes in Intensive Care Medicine** Jul 28 2022 Revision Notes in Intensive Care Medicine is a key resource for candidates preparing for postgraduate intensive care examinations. Mapped to the FFICM, EDIC and FCICM syllabuses, this title ensures candidates have all the information needed to prepare for their examinations. Information is presented in concise note form and bullet points with visually memorable tools, such as tables and diagrams, making revising and retaining key facts easier. Chapters are arranged into physiological systems, such as 'Respiratory Intensive Care' and 'Obstetric Intensive Care', and are subdivided into major clinical issues within each chapter so specific areas of further study can be found easily. Drawing from the authors' experiences as successful candidates, and carefully reviewed by consultants, Revision Notes in Intensive Care Medicine provides the foundation for postgraduate intensive care exam revision.
