Cpim Certification Exam Examfocus Study Notes & Review Questions 2018/19 Nov 24 2019 A supply chain is a network of retailers, distributors, transporters, storage facilities and suppliers that participate in the sale, delivery and production of a particular product. The concept of supply chain often involves backward integration - acquiring ownership of one's supply chain (in the hope of reducing supplier power and thus reducing input costs). The four major functional components are: demand planning manufacturing planning and scheduling supply planning transportation planning The reconfigured module 1 BSCM exam covers the basics. The exam attempts to test your basic understanding towards supply chain and the various PIM (production and inventory management) concepts. Many people consider this exam as the easiest one. To assure exam success, you need to read and learn as much as possible. Our ExamFOCUS notes provides knowledge material to enhance your exam readiness - we help answer those tough questions that cover advanced knowledge and concepts not commonly found in the standard study material. Still, the coverage of the exam is huge. Expecting full and complete coverage of all the knowledge items from a single source is unrealistic. You are therefore advised to use this book together with other study resources for the best possible preparation!
