Our Own Agendas Jul 11 2021 Twenty-eight women - students, professors, administrators, and graduates of McGill University - reflect on their lives. With emotions that range from humour to angst, they discuss the problems they encountered and the achievements they made. Coming from different cultures, environments, professions, and age groups, the authors of these essays have their own agendas and individual styles. Yet amid this diversity they deal with recurring themes that give vivid insights into what it means to be a woman in Canada in the 1990s. They write about relationships, careers, illness, children, sexuality, sexism, violence, religion, the arts, misfortune, and good luck. Monique Bégin, former Minister of Health in Pierre Trudeau's

According to the ancient texts of Ayurveda, “All diseases begin at the junctions of the seasons.” When we push against the essence of each season—going to bed late in the winter, eating sweet, heavy foods in the spring, or neglecting our skincare in the summer—we fall out of sync with nature and optimal health. Drawing on more than a decade of experience, Chopra-certified teacher Susan Weis-Bohlen guides you through simple yet profoundly effective shifts to take a more holistic approach to your health, in line with traditional wisdom but adapted to modern lifestyles. Hidden Talents Jun 22 2022 This book started as personal memoirs, so that L. E. Dahlke could someday sift through the rubble of his shattered life and hopefully make sense of it all. In a single afternoon his life came crashing down. Less than six months later, he found himself sitting in a friend's house where he was staying, looking down the barrel of a pistol. He didn't even have the guts to pull the trigger. He found himself alone and searching, extremely angry and bitter. The people and circumstances that brought him extreme pain have forced him to explore Christianity. With this, he has learned how to

Expatriate Games Aug 12 2021 When Dave Fromm graduated from college with good grades and high LSAT scores, he planned to apply to law school. But he actually wasn't that sure he wanted to go, at least not right away. A few years earlier, he'd been to Prague for a vacation and played a game of pickup basketball there. He was a decent basketball player, though not good enough to make the team at Boston College either time he'd tried out. So he did the kind of thing we'd all do if we had the guts (and a foolhardy sense of determination)—he moved to Prague to play basketball, even though he didn't speak Czech, or know anyone in Prague, or if the Czechs had basketball leagues there, much less professional leagues, still less if they let foreigners play. Expatriate Games is Dave

Fromm's touching and amusing memoir of the year (1994) he spent playing basketball for TJ Sokol Královské Vinohrady, a Czech semi-pro team. Throughout, Fromm, a self-proclaimed "gym-rat," struggles with his teammates, the European style of play, and the language barrier. But miraculously, Fromm describes how, despite the struggles, the team came together, a girl appeared, and he was introduced to a side of Prague most foreigners can't see—a Prague full of ghosts and back alleys and a people simultaneously embracing and reeling from transition.

The Tao of Vegetable Gardening Oct 02 2020 The Tao of Vegetable Gardening explores the practical methods as well as the deeper essence of gardening. In her latest book, groundbreaking garden writer Carol Deppe (The Resilient

Gardener, Breed Your Own Vegetable Varieties) focuses on some of the most popular home garden vegetables—tomatoes, green beans, peas, and leafy greens—and through them illustrates the key principles and practices that gardeners need to know to successfully plant and grow just about any food crop. Deppe’s work has long been inspired and informed by the philosophy and wisdom of Tao Te Ching, the 2,500-year-old work attributed to Chinese sage Lao Tzu and the most translated book in the world after the Bible. The Tao of Vegetable Gardening is organized into chapters that echo fundamental Taoist concepts: Balance, Flexibility, Honoring the Essential Nature (your own and that of your plants), Effortless Effort, Non-Doing, and even Non-Knowing. Yet the book also offers a wealth of specific and valuable garden advice on topics as diverse as: • The Eat-All Greens Garden, a labor- and space-efficient way to provide all the greens a family can eat, **Polze Land and SEVEN SECONDS OR**

the reader through the ups and downs of competition and the life-lessons learned from that experience. But it is not all about football. The author's enjoyment of music of the period is woven throughout the book with popular songs of the time serving as chapter titles. If you remember the 1970's — the music, the events of the time and the college experience — you should enjoy this book. If you are a fan of college football, particularly small-college football, you likely will enjoy the intimate look at what the game was like in the 70s. Younger readers might also find the contrast in student life today and back in the 70s interesting and amusing. And the lessons learned and training received on the gridiron are as relevant in the present as they were back then.

Project 333 Jun 17 2019 Wear just 33 items for 3 months and get back all the JOY you were missing while you were worrying what to wear. In Project 333, minimalist expert and author of *Soulful Simplicity* Courtney Carver takes a new approach to living simply--starting with your wardrobe. Project 333 promises that not only can you survive with just 33 items in your closet for 3 months, but you'll thrive just like the thousands of woman who have taken on the challenge and never looked back. Let the de-

cluttering begin! Ever ask yourself how many of the items in your closet you actually wear? In search of a way to pare down on her expensive shopping habit, consistent lack of satisfaction with her purchases, and ever-growing closet, Carver created Project 333. In this book, she guides readers through their closets item-by-item, sifting through all the emotional baggage associated with those oh-so strappy high-heel sandals that cost a fortune but destroy your feet every time you walk more than a few steps to that extensive collection of never-worn little black dresses, to locate the items that actually look and feel like you. As Carver reveals in this book, once we finally release ourselves from the cyclical nature of consumerism and focus less on

our shoes and more on our self-care, we not only look great we feel great-- and we can see a clear path to make other important changes in our lives that reach far beyond our closets. With tips, solutions, and a closet-full of inspiration, this life-changing minimalist manual shows readers that we are so much more than what we wear, and that who we are and what we have is so much more than enough.
