Gifts and Commodities Feb 26 2020 First published in 1982, Christopher A. Gregory's *Gifts and commodities* is one of the undisputed classics of economic anthropology. The book spurred intense debates about gifts and gifting, value, exchange, and the place of political economy in anthropology. *Gifts and commodities* is, at once, a critique of neoclassical economics and development theory, a critical history of colonial Papua New Guinea, and a comparative ethnography of exchange in Melanesian societies. This new edition, with a foreword by anthropologist Marilyn Strathern, offers a new generation of scholars a fresh opportunity to revisit this classic in light of contemporary socio-economic issues: from the global proliferation of neoliberal economic reforms to the chorus of activism protesting the moral and ideological grounds of capitalism. 1st Edition Publication Data: Gregory, C. A. 1982. *Gifts and commodities*. [Studies in Political Economy Series, edited by John Eatwell.] London: Academic Press. ISBN: 0-12-301460-3. ISBN 0-12-301462-X Pbk.

Imperfect Competition and Sticky Prices Nov 24 2019 These two volumes bring together a set of important essays that represent a "newKeynesian" perspective in economics today. This recent work shows how the Keynesian approach to economic fluctuations can be supported by rigorous microeconomic models of economic behavior. The essays are grouped in seven parts that cover costly price adjustment, staggering of wages and prices, imperfect competition, coordination failures, and the markets for labor, credit, and goods. An overall introduction, brief introductions to each of the parts, and a bibliography of additional papers in the field round out this valuable collection. Volume 1 focuses on how friction in price setting at the microeconomic level leads to nominal rigidity at the macroeconomic level, and on the macroeconomic consequences of imperfect competition, including aggregate demand externalities and multipliers. Volume 2 addresses recent research on non-Walrasian features of the labor, credit, and goods markets. N. Gregory Mankiw is Professor of Economics at Harvard University.
