Fun Projects for U.S. History: The Civil War Jul 28 2022 Use hands-on projects to teach students about American History. The Fun Projects for U.S. History series has students using materials such as paint, clay, and poster board to create a wide array of displays, replicas, reproductions, artifacts, and adornments. The book has nine projects, extension activities for graphics, and a CD-ROM with the full text and all of the illustrations in full color. Projects: Patriotic Stationery, Faux-Leather Sewing Kit, Southern Cockades, Quilt Blocks, Union and Confederate Ironclads, and more.

Nuts to You! Feb 29 2020 When a mischievous squirrel wanders into an apartment in the city, he must find a clever way to get himself out, in a story that includes labels to identify the plants, birds, and insects as well as a glossary at the back of the book. Children's BOMC. Reprint.

Create a White Forest Path Diorama Sep 29 2022 Turn this book into a Forest Path Diorama. What is a paper diorama? It is a three dimensional scene, created with multiple layers of paper. In this book, you will find pre-made templates designed to easily create your own white woodland landscape diorama. It's a simple project, cut away the dark areas, leave the white paper intact. You'll find step by step instructions, suitable for beginner to advanced skill level paper craft artists. With the help of a few simple tools, these templates create a lovely, three dimensional image inside this book. The book artwork can be completed and displayed on your coffee table. Also, the completed paper art will fit nicely into a standard picture frame. Start creating your very own diorama today!

The Unofficial Great Gatsby Companion Oct 26 2019 If you can't get enough of The Great Gatsby, then this is one book you will not want to miss. This companion is a bundle of several of

BookCaps™ bestselling books. It includes a short biography of F. Scott Fitzgerald, a look into the marriage of F. Scott and Zelda, a study guide to the novel, and teacher lesson plans. BookCap Study Guides do not contain text from the actual book, and are not meant to be purchased as alternatives to reading the book. This study guide is an unofficial companion and not endorsed by the author or publisher of the book.

A Crash Course in Teaching Religion Jul 16 2021 This simple, yet indispensable book offers tips and techniques on every aspect of teaching religion. Sr. Kathleen covers every possible aspect of preparing and teaching a religion class: the role of the teacher; shaping a lesson plan; teaching a lesson; good discipline; using Scripture, prayer; stories, music, and drama in your class; writing and other activities; working with parents; and much more. For novices and veteran teachers alike.

Natural History Dioramas - Traditional Exhibits for Current Educational Themes Apr 24 2022 This book focuses on socio-cultural issues and the potential of using dioramas in museums to engage various audiences with - and in - contemporary debates and big issues, which society and the natural environment are facing, such as biodiversity loss. From the early 1900s, with the passage of time and changes in cultural norms in societies, this genre of exhibits evolved in response to the changes in entertainment, expectations and expressed needs of museum visitors. The challenge has always been to provide meaningful, relevant experiences to visitors, and this is still the aim today. Dioramas are also increasingly valued as learning tools. Contributions in this book specifically focus on their educational potential. In practice, dioramas are used by a wide range of educational practitioners to assist learners in developing and understanding specific concepts, such as climate change, evolution or or conservation issues. In this learning process, dioramas not only contribute to scientific understanding and cultural awareness, but also reconnect wide audiences to the natural

world and thereby contribute to the well-being of societies. In the simultaneously published book: "Natural History Dioramas - Traditional Exhibits for Current Educational Themes, Science Educational Aspects" the editors discuss the history of dioramas and their building and science learning aspects, as well as current developments and their place in the visitor experience.

Parlor Ponds May 26 2022 *Parlor Ponds: The Cultural Work of the American Home Aquarium, 1850-1970* examines the myriad cultural meanings of the American home aquarium during the nineteenth and twentieth centuries and argues that the home aquarium provided its enthusiasts with a potent tool for managing the challenges of historical change, from urbanization to globalization. The tank could be a window to an alien world, a theater for domestic melodrama, or a vehicle in a fantastical undersea journey. Its residents were seen as inscrutable and wholly disposable "its," as deeply loved and charismatic individuals, and as alter egos by aquarists themselves. *Parlor Ponds* fills a gap in the growing field of animal studies by showing that the tank is an emblematic product of modernity, one using elements of exploration, technology, science, and a commitment to rigorous observation to contain anxieties spawned by industrialization, urbanization, changing gender roles, and imperial entanglements. Judith Hamera engages advertisements, images, memoirs, public aquarium programs, and enthusiast publications to show how the history of the aquarium illuminates complex cultural attitudes toward nature and domestication, science and religion, gender and alterity, and national conquest and environmental stewardship with an emphasis on the ways it illuminates American public discourse on colonial and postcolonial expansion.

Danger on Midnight River Feb 20 2022 Slow learner Daniel Martin escapes peer teasing by spending most of his time outdoors, and when a van crash plunges him and a gang of bullies in the

river, Daniel must choose between saving himself and risking his life to save the others.

Mad Magpie Jun 22 2019 Age range 3 to 6 *Mad Magpie* is the third book in this successful series of morality tales from Gregg Dreise. Inspired by wise sayings and the knowledge of his Elders, *Mad Magpie* tells the story of Guluu, an angry magpie who is being teased by a gang of butcher birds. The more he is teased, the angrier he becomes. When Guluu seeks advice, his Elders tell him to stay calm like the river, ignore the butcher birds and to be strong on the inside. Guluu tries this, but the cheeky birds just laugh at him. One day, when Guluu is at the river looking for worms, the butcher birds arrive and steal his food. He remembers the words of his Elders and he tries again - and this time Guluu has a different outcome. He stands proudly at the riverbank and remembers how he used to sing when he was having a bad day. Guluu sings so loud he cannot hear the birds laughing at him and they eventually give up and fly away. From that time on, the animals learnt to use music to create a happy mood and they worked together to stop bullying.

Natural History Dioramas Mar 12 2021 This book brings together in a unique perspective aspects of natural history dioramas, their history, construction and rationale, interpretation and educational importance, from a number of different countries, from the west coast of the USA, across Europe to China. It describes the journey of dioramas from their inception through development to visions of their future. A complementary journey is that of visitors and their individual sense making and construction of their understanding from their own starting points, often interacting with others (e.g. teachers, peers, parents) as well as media (e.g. labels). Dioramas have been, hitherto, a rather neglected area of museum exhibits but a renaissance is beginning for them and their educational importance in contributing to people's understanding of the natural world. This volume showcases how dioramas can reach a wide audience and increase access to biological knowledge.

How to Build Creative Dioramas for Your Scale Auto Models Aug 29 2022 Learn how to use your imagination to design a scene and then bring that scene to life with this exciting book of step-by-step projects. Ideal for automotive modelers who want to present their car, truck, and motorcycle models in active, fun settings.

[Museum Object Lessons for the Digital Age](#) Jun 14 2021 Museum Object Lessons for the Digital Age explores the nature of digital objects in museums, asking us to question our assumptions about the material, social and political foundations of digital practices. Through four wide-ranging chapters, each focused on a single object - a box, pen, effigy and cloak - this short, accessible book explores the legacies of earlier museum practices of collection, older forms of media (from dioramas to photography), and theories of how knowledge is produced in museums on a wide range of digital projects. Swooping from Ethnographic to Decorative Arts Collections, from the Google Art Project to bespoke digital experiments, Haidy Geismar explores the object lessons contained in digital form and asks what they can tell us about both the past and the future. Drawing on the author's extensive experience working with collections across the world, Geismar argues for an understanding of digital media as material, rather than immaterial, and advocates for a more nuanced, ethnographic and historicised view of museum digitisation projects than those usually adopted in the celebratory accounts of new media in museums. By locating the digital as part of a longer history of material engagements, transformations and processes of translation, this book broadens our understanding of the reality effects that digital technologies create, and of how digital media can be mobilised in different parts of the world to very different effects.

A Companion to Museum Studies Sep 25 2019 A Companion to Museum Studies captures the multidisciplinary approach to the study of the development, roles, and significance of museums in contemporary society. Collects first-rate original essays by leading figures from a range of disciplines and theoretical stances, including anthropology, art history, history, literature, sociology, cultural studies, and museum studies Examines the complexity of the museum from cultural, political, curatorial, historical and representational perspectives Covers traditional subjects, such as space, display, buildings, objects and collecting, and more contemporary challenges such as visiting, commerce, community and experimental exhibition forms

Creating a Military Modelling Diorama Jan 22 2022 Creating a diorama offers modellers a chance to display their figures and vehicles in a realistic setting, often providing a 'snapshot' of a moment in history. This book provides step-by-step instructions on how to plan, design and build a diorama and is suitable for new and more experienced modellers. With over 270 colour photographs, it considers all scales from 1/87 (H0) to 1/32 and their implications for the diorama builder. The importance of research to ensure historical accuracy is emphasized. Advice is given on the creation of dioramas in different scales and sizes. It demonstrates the techniques required to achieve effective results for landscapes, terrain and vegetation. Finally, examples are included from the Napoleonic Wars, American Civil War, World War I and World War II.

Romanticism and Visuality Oct 19 2021 This book investigates the productive crosscurrents between visual culture and literary texts in the Romantic period, focusing on the construction and manipulation of the visual, the impact of new visual media on the literary and historical imagination,

and on fragments and ruins as occupying the shifting border between the visible and the invisible. It examines a broad selection of instances that reflect debates over how seeing should itself be viewed: instances, from Daguerre's Diorama, to the staging of Coleridge's play *Remorse*, to the figure of the Medusa in Shelley's poetry and at the Phantasmagoria, in which the very act of seeing is represented or dramatized. In reconsidering literary engagements with the expanding visual field, this study argues that the popular culture of Regency Britain reflected not just emergent and highly capitalized forms of mass entertainment, but also a lively interest in the aesthetic and conceptual dimensions of looking. What is commonly thought to be the Romantic resistance to the visible gives way to a generative fascination with the visual and its imaginative--even spectacular--possibilities.

Creating Back Scenes for Model Railways and Dioramas Aug 05 2020 A model railway layout is greatly enhanced by a good back scene - if a modeller is prepared to go to great lengths to achieve realism in the locomotives, rolling stock and buildings, this should be carried through to the scenics. This book is a comprehensive guide for both railway and diorama modellers to create convincing back scenes. It covers choosing the right materials; rural and urban back scenes; traditional painted back scenes; producing back scenes with camera and/or computer; the correct use of forced perspective and scale reduction; getting the transition from layout to back scene right and, finally, lighting and presentation. Aimed at all modellers, especially but not exclusively railway modellers, and superbly illustrated with over 300 colour photographs and diagrams.

Savage Imaginings Oct 07 2020 This book explores the dominant discussions in Australian Aboriginal history. Its central tenet is that European textual representations of Aboriginal Australians have characteristically involved images and imaginings of primitivism, great antiquity and sameness. The author argues that Aboriginal-focussed museum displays, textual studies and

photo-essays have reduced Aboriginal culture to a moment frozen in pre-contact time.

Developing Adolescent Literacy in the Online Classroom Aug 24 2019 Recipient of the 2021 Divergent Book Award for Excellence in 21st Century Literacies Research given by the Initiative for 21st Century Literacies Research Today's secondary virtual teachers are tasked with designing and implementing effective literacy instructional approaches for adolescent online learners. Neglecting to consider the magnitude of possessing literacy skills needed in today's world and not teaching literacy effectively may lead to challenges for students in school and beyond. For most educators, one's toolbox of literacy instructional strategies center around approaches intended for the traditional brick-and-mortar classroom. But methods of reading and writing within the online classroom differ from those within the traditional school setting. Though online students are often separated by time and space, it's entirely possible for virtual teachers to utilize literacy strategies that actively entice and encourage student learning and engagement. This text provides virtual teachers a variety of strategies for translating traditional literacy instruction and assessment into the online classroom.

Jumbo Book of Writing Lessons Nov 19 2021 Provides informaton on the traits of good writing, the steps of the writing process, and the guidelines for incorporating writing into literacy instruction.

studies, and math.

Dictionary of Occupational Titles. Supplement. Edition II. Nov 27 2019

A+ Projects & Dioramas Apr 12 2021

Ship Dioramas Dec 21 2021 This book is about the art of displaying waterline models. By their very nature, ship models that do not show the full hull and are not mounted on an artificial stand cry out for a realistic setting. At its most basic this can be just a representation of the sea itself, but to give the model a context – even to tell some sort of story – is far more challenging. This is the province of the diorama, which at its most effective is a depiction of a scene or an event in which the ship model takes centre stage. As with a painting, the composition is a vital element and this book devotes much of its space to what works and what does not, and illustrates with photographic examples why the best maritime dioramas have visual power and how to achieve that impact. Individual chapters explore themes like having small craft in attendance on the main subject, multiple-model scenarios, dockyards and naval bases, and the difficulties of replicating naval combat realistically. It also looks at both extremes of modelmaking ambition: the small single-ship exposition and the largest, most ambitious projects of the kind meant for museum display. The book concludes with some of the most advanced concepts – how to create drama and the illusion of movement, and how to manipulate perspective. Illustrated throughout with colour photos, the more abstract discussion is backed with practical 'how to' sections, so anyone who builds waterline ship model will benefit from reading this book. As featured in 'Glasgow Now'.
